

COMMUNICATING THE CURRICULUM

We believe we provide all staff with a framework for the highest quality teaching and learning in order to inspire all children to learn and achieve to the best of their ability. Through high quality teaching and learning, we will support pupils in developing the knowledge, understanding and skills that will enable them to fulfil their intellectual and personal potential and thereby help to prepare them to make a mature and critical contribution to society as an adult.

We believe that the following key statements define high quality teaching:

- To set high expectations for all pupils.
- To talk regularly with learners about their learning and to listen to them.
- To ensure pupils know the learning objectives of all lessons and to know if they have achieved that objective.
- To be knowledgeable about what we are teaching.
- To reflect on our practice and challenge our own thinking.
- To ensure that we have a clear picture of our pupils' knowledge, skills and their level of understanding.
- To organise our classroom activities to encourage children to become successful learners through understanding how they learn.
- To deliver purposeful lessons with speed and challenge.
- To link lessons to real life situations and problems and with other subjects.
- To use open ended questioning techniques.
- To meet the needs of all learners by using different teaching strategies.
- To formally and informally assess the attainment of our pupils.

We believe quality learning is reflected in the outcomes of the education experienced by the children and this is evident in their response, attainment and progress.

We believe high quality learning is achieved when pupils are:

- enthusiastic, attentive, responsive and on task;
- talking confidently and ask appropriate questions;
- confident in asking for help and support;
- aware of their achievements and what they need to do in order to improve;
- producing good quality work;
- knowledgeable about their learning

We believe the learning environment makes a significant contribution to the quality of education provided. Therefore, we have created a learning environment that has been adapted from the Accelerated Learning in the Primary School approach in which:

- space is used effectively;
- layout accommodates movement;
- resources are clearly labelled and accessible;
- display reflects current learning and is changed regularly;
- the environment offers challenge and opportunity for further learning;
- the needs of the children are catered for;
- resources are well maintained;
- children are encouraged to be creative independent learners and thinkers

We wish to work closely with the School Council and to hear their views and opinions as we acknowledge and support Article 12 of the United Nations Convention on the Rights of the Child that children should be encouraged to form and to express their views.
